Meet Our Heads

Chris Parjaszewski

CEO & Founder

Our CEO and Co-Founder supporting smart recruitment and now candidates.

At MindPal, Chris manages the day-to-day work of the company, inspiring and **supporting his colleagues**.

Member of FC23, Founders Cafe, **helps creators develop new ideas**.

Anna Kramarczyk

Project manager

Experienced Project Manager known for **combining strategic thinking with excellent communication and leadership skills**.

Dedicated to coordinating teams effectively, **solving challenges proactively**, and driving projects toward successful outcomes with **professionalism and attention to detail**.

Tom Osipowicz

Solutions Consultant

With over a decades worth of consultative sales experience I love exploring **solutions that drive team and departmental efficiencies**.

Let's see how we can make people's lives easier with **software supporting** them, not replacing them.

Tom Teluk

Senior Communication Consultant

With **over two decades of experience** with shaping influential dialogues, our team at MindPal thrives.

As a Senior Communication Consultant, **Tom apply expertise in strategic communication**, information management, and PR to elevate our digital footprint.

Richmond, CA

Business Model

Pegasus Solar is a proud American **company committed to big ideas** and renewable energy sources - **solar panels**. With innovative technologies, they **boost the efficiency of solar panel installation**, speeding up the process and saving installation materials and therefore costs. They have more than:

- **5 million** units shipped,
- Nearly **1 gigawatt** installed,
- **18** U.S.& international patents granted,
- **100,000** square foot warehouse in Richmond, CA
- Distribution network in **33 states**.

Our Deployment

We have been working with Pegasus **since 2023**. Our cooperation is based on **providing state-of-the-art technological solutions** aimed at **creating a unique tool for managing solar projects** for big companies using Pegasus Solar products.

Deliverables

- External API integrations
- Data Science
- AI implementations
- Solar system technical documentation
- Newest front-end technologies
- Newest back-end technologies

Leverkusen, Germany

Business Model

Bayer AG is a German **multinational pharmaceutical** and life sciences company and one of the **largest pharmaceutical companies in the world**.

Headquartered in Leverkusen, Bayer's areas of business include human and veterinary pharmaceuticals; consumer healthcare products; agricultural chemicals, seeds, and biotechnology products

Our Deployment

We have been working with Bayer **since 2015** and among multiple projects and company departments. The focus was always on **bringing the newest technologies** and support **digital transformation + AI adoption**.

Deliverables

- Data Science, Decision Science
- Newest front-end technologies
- Newest back-end technologies

Business Model

Junction Education is a U.S.-based EdTech company **delivering interactive, mobile-first courseware** grounded in learning science. Their platform **helps educators** and institutions provide engaging, outcome-driven digital courses with real-time feedback, modular content, and deep analytics. They support:

- **20+** course disciplines,
- **Thousands** of students and educators,
- Seamless LMS and mobile integrations.

Our Deployment

We have been collaborating with Junction Education since **2013**. Our work centers on **strengthening and scaling their courseware platform** with advanced digital tools and systems integration to **maximize user engagement** and **operational performance**.

Deliverables

- Custom LMS integrations,
- Data-driven insights and dashboards,
- Generative AI features for content authoring,
- Accessibility optimization and compliance tools,
- Modern front-end architecture,
- Secure and scalable back-end infrastructure.

Business Model

UNICEF, also greatly known as the United Nations International Children's Emergency Fund, is a United Nations agency responsible for **providing humanitarian and developmental aid to children worldwide**. The agency is among the most widespread and recognizable social welfare organizations in the world, with a presence in **192 countries** and territories.

Our Deployment

We have been working with UNICEF **since 2014** and among multiple projects and company departments. The focus was always on bringing the newest technologies and support **digital transformation + AI adoption**. Among many projects, **we are responsible for the UNICEF Innovation Fund platform**.

Deliverables

- Big Data platform
- Newest front-end technologies
- Newest back-end technologies

18th Chopin Piano Competition

Warsaw, Poland

Business Model

The International Chopin Piano Competition often referred to as the Chopin Competition, is a **piano competition held in Warsaw, Poland.**

Our Deployment

Desktop streaming application for world's greatest Frideric Chopin piano competition.

Deliverables

- Smart TV streaming platform for Samsung Tizen
- custom CMS platform for **30+ employees**
- scalable architecture ready to handle **1 M+ audience**
- integration with e-Commerce for ticket sale
- DevOps and technology consultancy

Problem

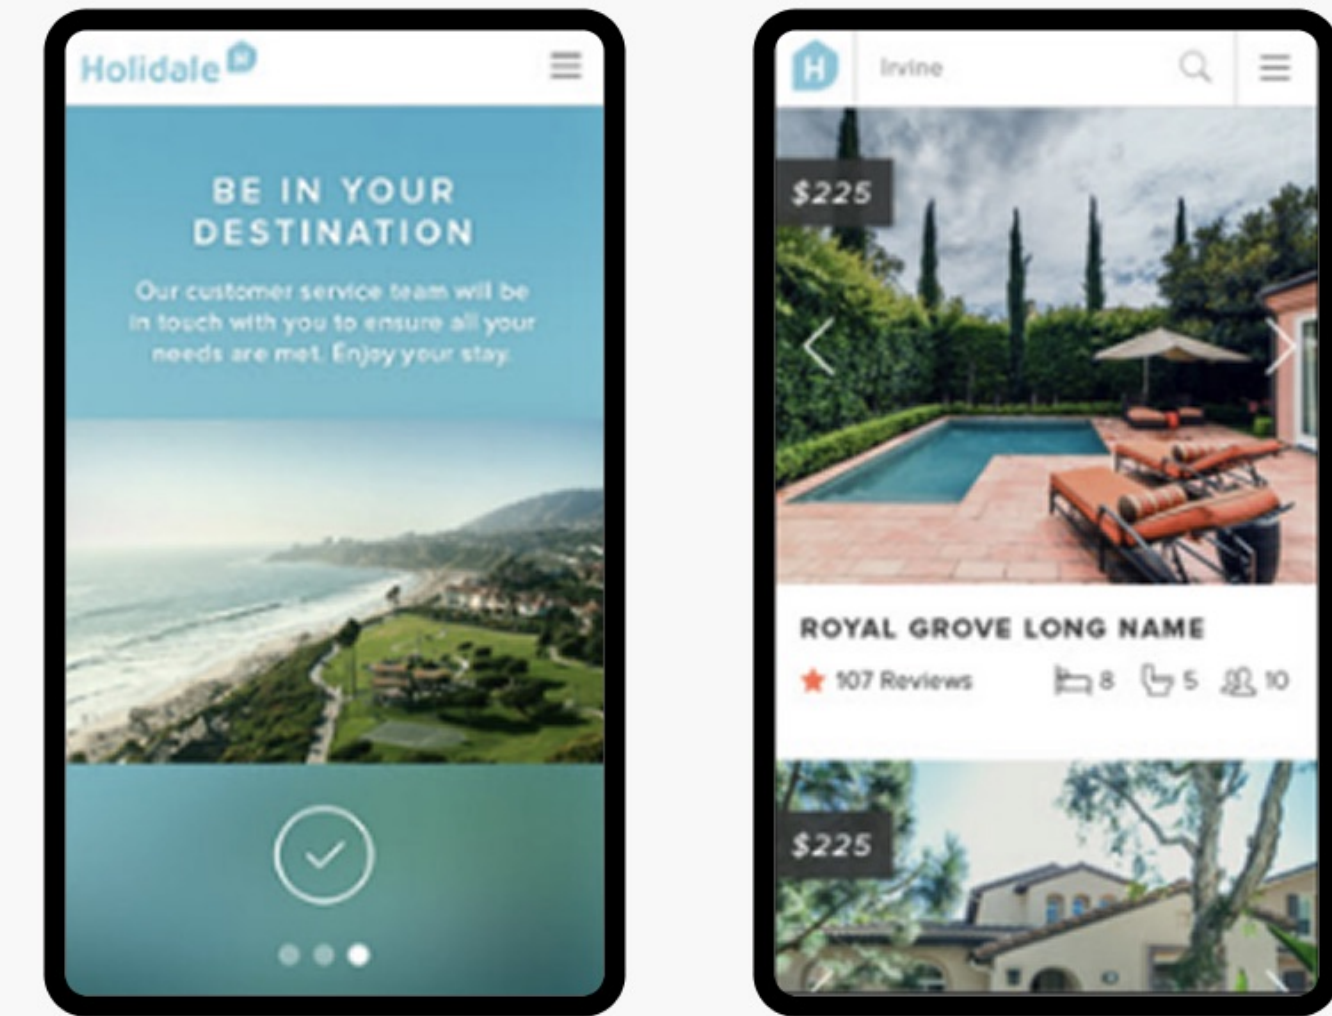

- Platform's brand **HAS NOT** represented high quality of properties offered.
- Technology - Ruby on Rails app was **poorly written**, **slow** and **non-scalable**.

Solution

- Strategy document + Branding + Redesign.
- Tech Stack. We've came with React and application ready for AWS.

Result

- Fresh, luxury brand.
- Smooth and clean digital experience. **Modern** and **300% faster** website.

Holidale

Problem

Two SF co-founders raised \$150k Y Combinator and got 90 days towards Demo Day. They needed a **reliable and experienced** tech-partner **urgently**.

Solution

Recommended from a previous SF client - MindPal has quickly joined forces with Modern Health team, **provided a flexible team for the next 18 months**. The team visited San Francisco twice, altogether 5 persons and a puppy dog.

Results

Modern Health **raised** its seed capital, Series-A, Series-B, and Series-C afterward, becoming a **unicorn** - over **one billion dollar** valuation.

Problem

A fast-growing company had a legacy e-commerce platform written in Python - **needed maintenance, increase usability, and performance boost.**

Solution

We established a complementary and flexible team to **deliver a modern digital experience** for demanding customers. The platform was maintained to **handle a large volume of daily sales.**

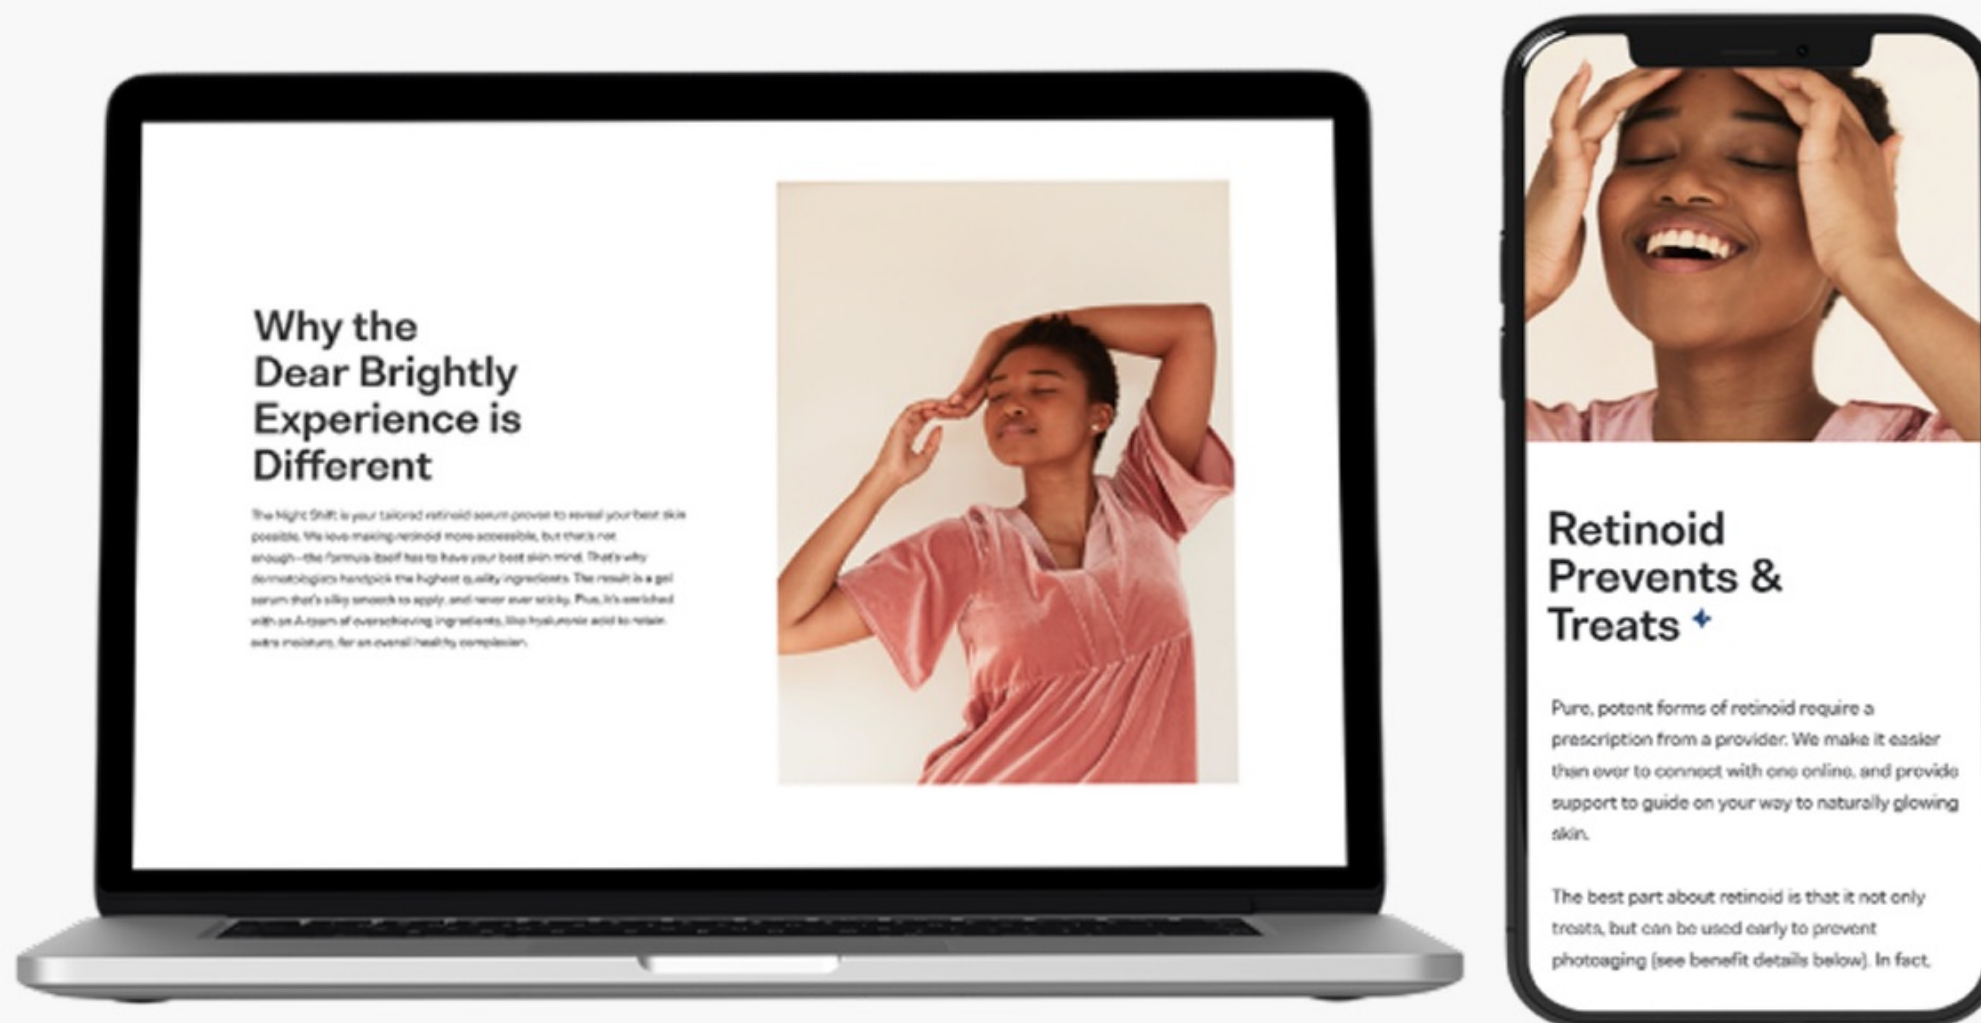

Result

- 2.5 years of collaboration.
- Significantly **improved** website performance **500% faster.**
- Made it **secure**, added testing and deployment automation, and having **+20% revenue.**

Dear Brightly

Y Combinator

Problem

The small team during the pre-seed and seed stage needed a **highly converting eCommerce platform** - digital clinic - **with HIPAA in mind**.

Solution

MindPal provided a scalable team throughout the **2 years of collaboration**, that has **rebuilt the application from scratch**, conducted **A/B tests** for the entire customer workflow. We consulted CTO on the architecture decisions and came up with necessary conversion optimizations.

Results

After iterations and optimization, Dear Brightly is doing **over \$3M ARR**.

Problem

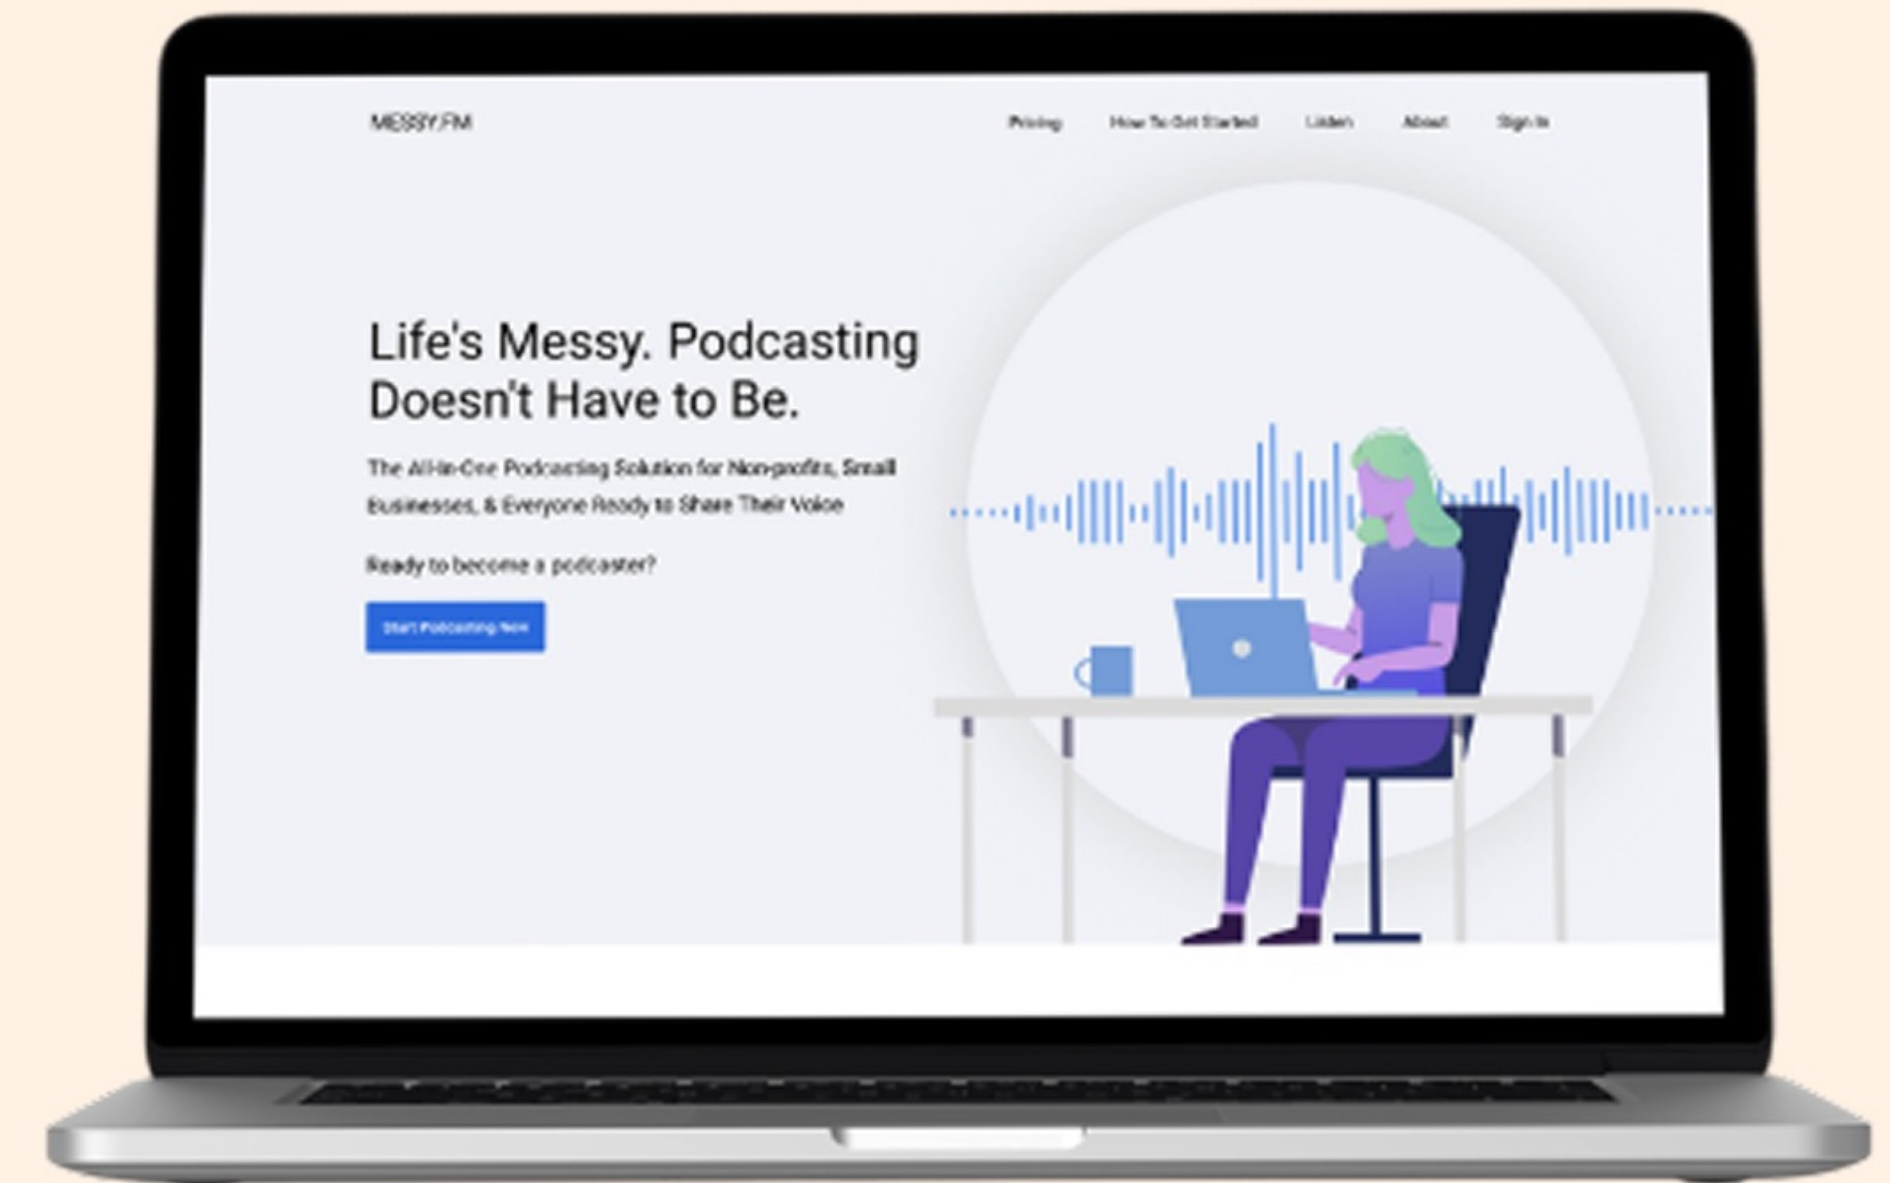

Messy was initially experiencing strong growth but also **having issues with the scalability** of a quickly built prototype not ready for growth.

Solution

We quickly assembled team of experts, **focused on making the codebase clean**, a user interface shine and Messy become ready for both growth and pivots.

Result

Eventually, Messy pivoted from B2C towards B2B and sold as a white label to dozens of Fortune 500 companies - **becoming profitable** and **more scalable** than ever with **1.3M+ listeners**.

MESSY.FM

in 2020 acquired by
 **REALPAGE**
OUTPERFORM

Torrance, CA | Tuscaloosa, AL

Business Model

WhiteSky Communications, LLC is **an innovative managed services and telecommunications company** that was established in 2005. In 2021, acquired by a multi-billion digital real-estate leader.

Our Deployment

We helped the organization **sustain the efficiency** throughout the observed annual **50% increases** in cable customers **over the 5 concurrent years**.

Deliverables

- Full-Stack Digital Product Partnership
- Branding, UX, UI
- REST Admin Panel to manage growing user and device base
- Corporate, Wholesale, and Support portals
- Digital Strategy

Business Model

Launching a **new medical hardware product** to the American market with both online and offline marketing activities. **Raised \$30M+ to date.**

Our Deployment

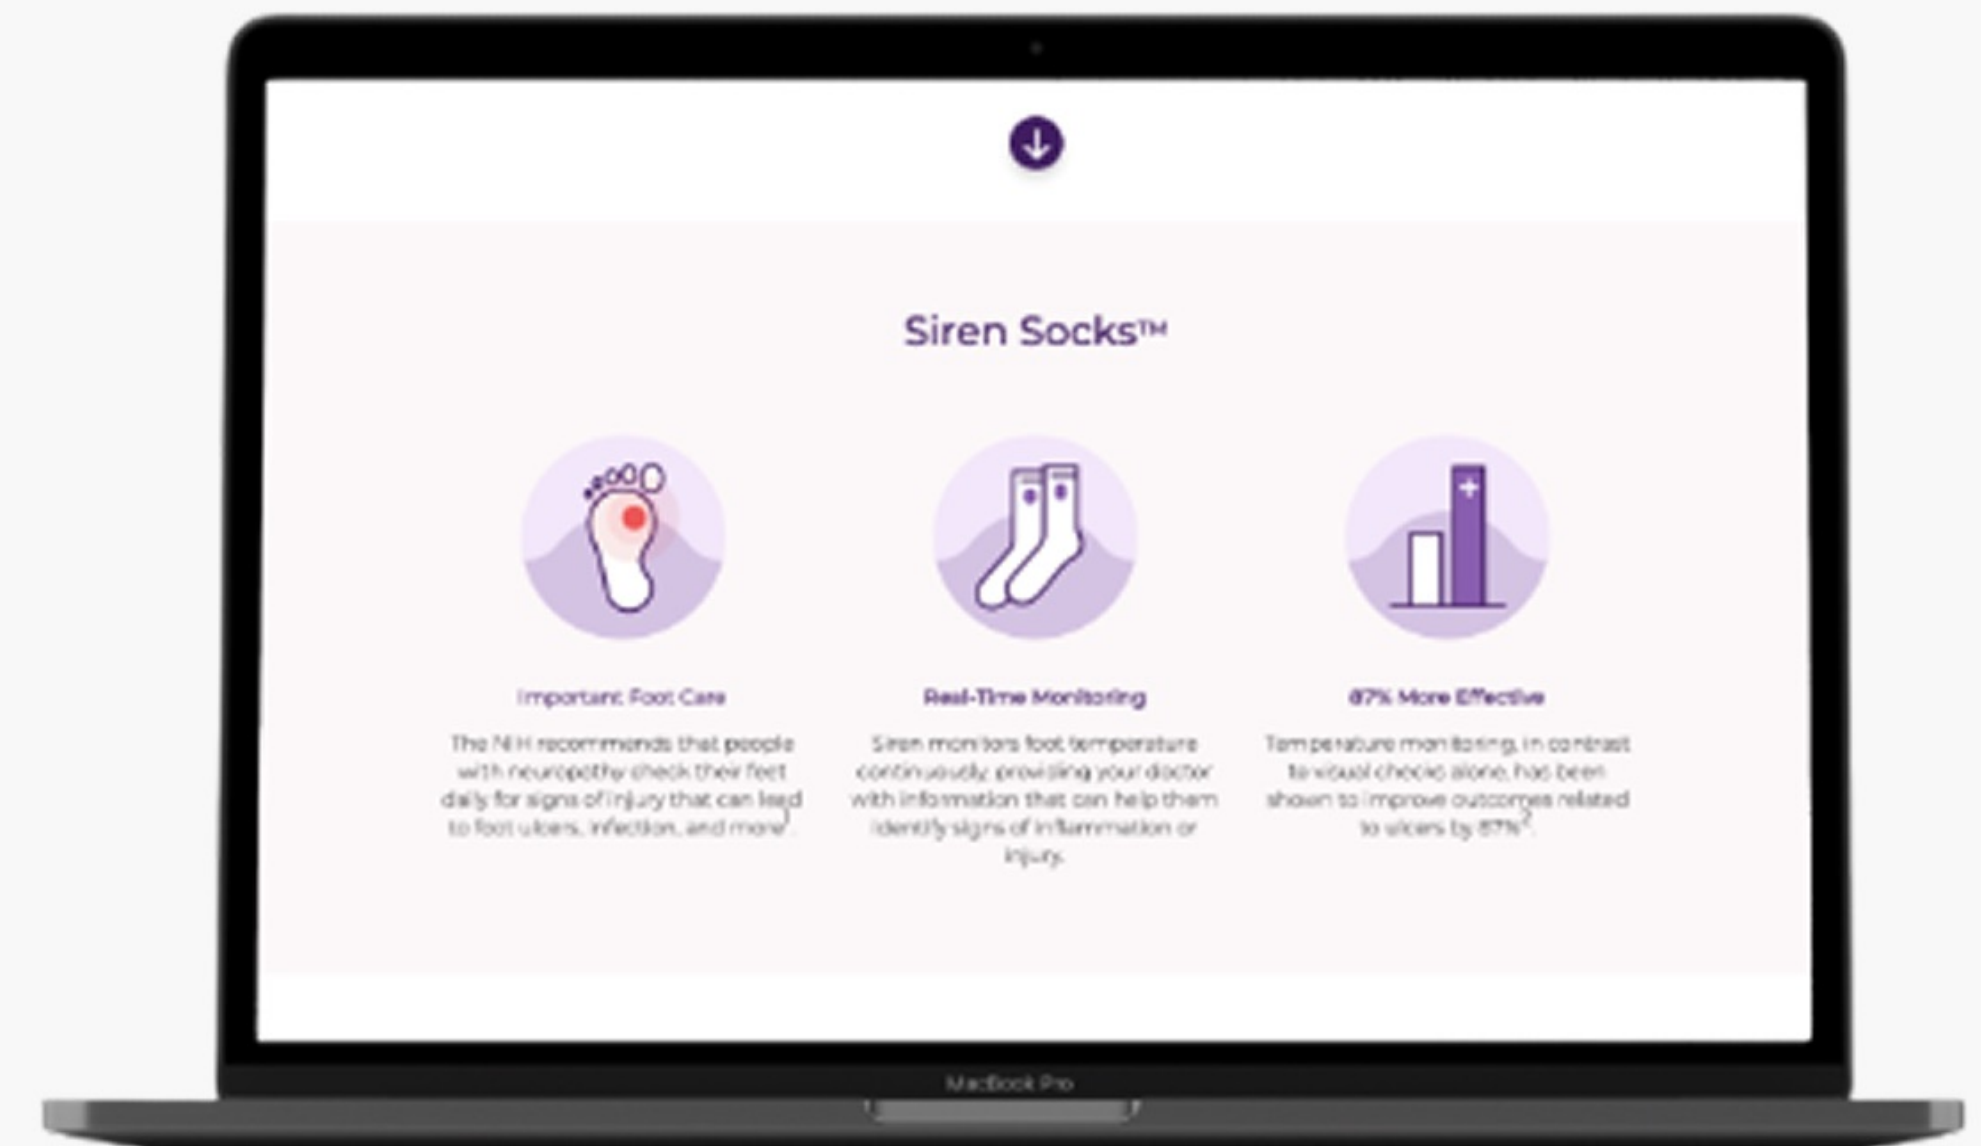

We **built a landing page** to **educate patients** and doctors on the newly available tech treatment. Facilitated the ability for pre-orders from an integrated e-Commerce component.

Deliverables

- Landing Page Optimization
- Tested **100** different versions with Unbounce
- Integration with Stripe recurring payments for pre-orders

San Francisco, CA

San Francisco, CA

Business Model

Indio **simplifies the insurance application process** for brokers and clients, making it fast and easy. Acquired by Applied Systems in 2019 after raising **\$28M** till series-B.

Our Deployment

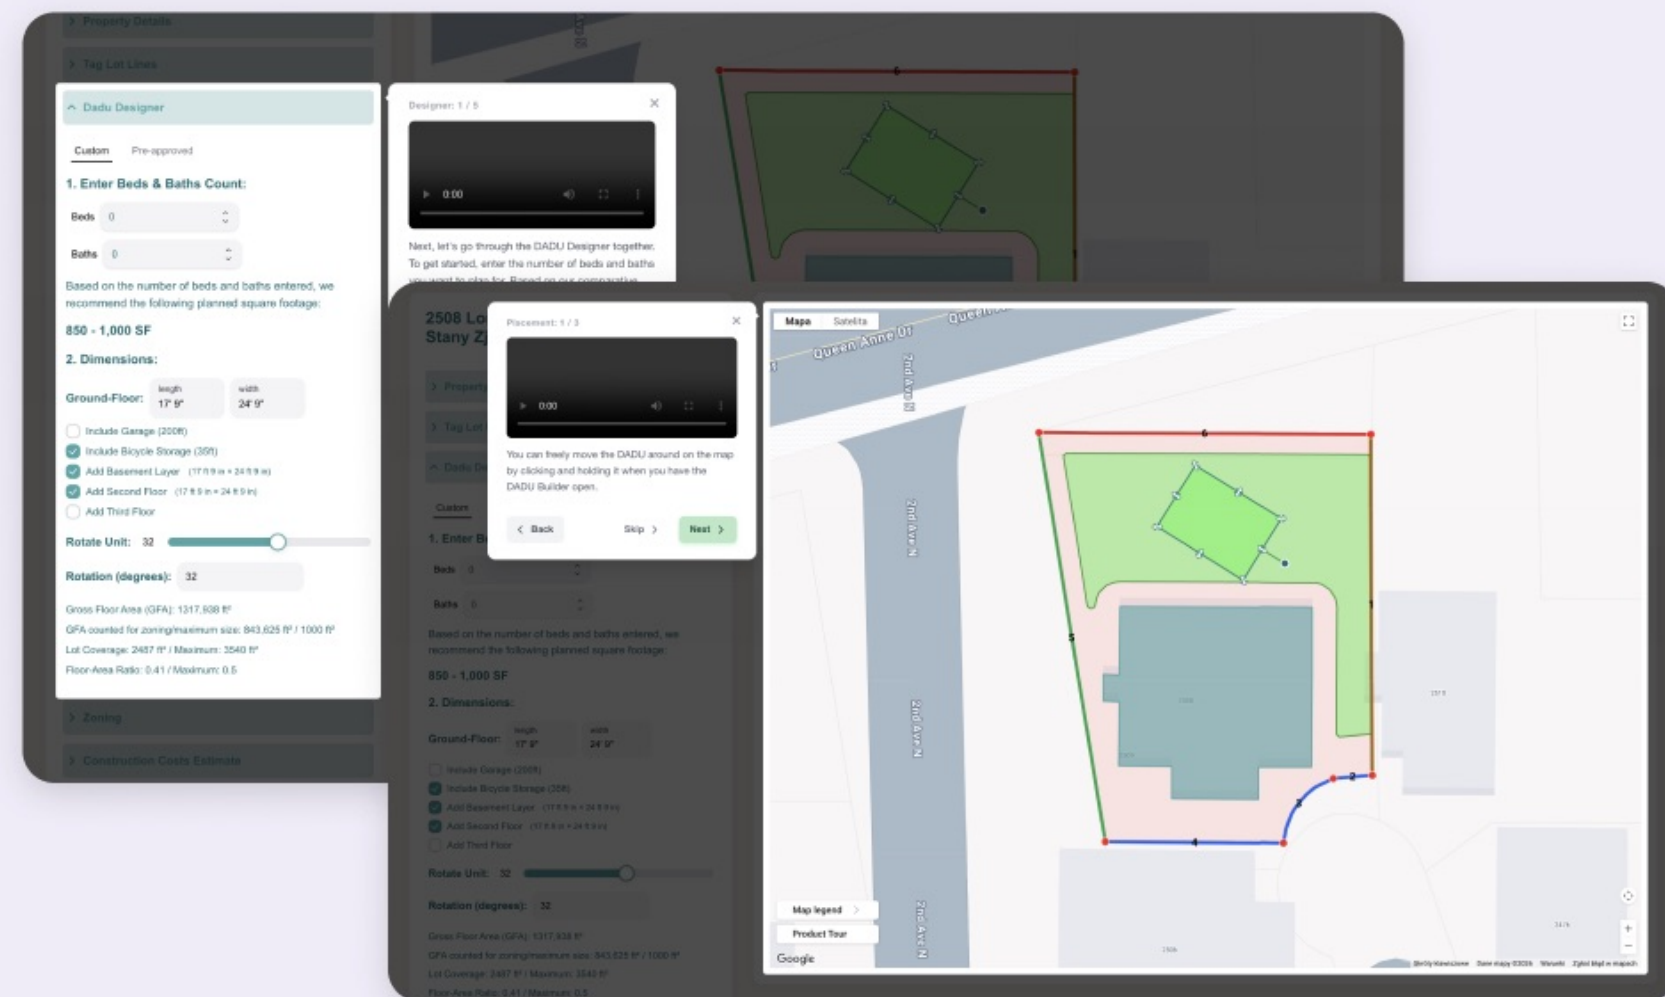

We joined forces with Indio since their pre-seed till series-A, **building the front-end and back-end fundamentals** for the existing application. Later, **we helped to build and train the in-house team** in Europe.

Deliverables

- Angular, AngularJS, React, and TypeScript apps
- Python and Django back-end and integrations

YIMBY AI

Seattle | Washington

Business Model

Yimby AI is a PropTech application designed to streamline the residential **pre-construction planning process** for accessory dwelling units (ADUs and DADUs).

Our Deployment

We collaborated on delivering an **end-to-end feasibility and design application** that combines geographic data, regulatory constraints, and **financial modeling into a unified user workflow**.

Deliverables

- Geographic & Google Maps API integrations
- Automated zoning and setback rule evaluation engine
- Real-time interactive lot and footprint visualization
- Custom 2D/3D design layout editor
- Multi-layer cost estimation and pro-forma generator
- Modern front-end and back-end web application technologies

Real stories of collaboration and success

“

“I absolutely recommend MindPal, they’ve been a really great partner for growing business and they’ve really been a team that we can hand any problem that we have and say ‘guys here’s what we’ve got going on’, help us come up with unique and efficient way to solve this.”

Spencer Thomason

Senior Network Engineer, Whitesky Communications

Real stories of collaboration and success

“

“I found MindPal online first and next I went to Europe to meet the team. I liked what they are doing, seemed they are really good guys. I was also really impressed with the technical talent in Poland. I think the universities and the way the people are taught prepares people more for the real world.”

Adam Bratt

Product Developer, Benzigna

BENZINGA

Real stories of collaboration and success

“

“We are glad to hereby confirm that Modern Health Inc. has successfully cooperated with MindPal during designing and accomplish of our Modern Health platform. We recognized MindPal as a reliable, very helpful partner in business and an expert team in the design and creation of digital products.”

Alyson Watson

CEO of Modern Health
